No. 18

## Fifteen In Field. Six Are Favorites

Monday's Primary Election Passes  
Without Excitement—Good  
Men Up.

Monday's primaries were not marked with anything to cause excitement. There appears to have been a little trading, but for all that there are some good men left to select from. In fact, the six men now in the field for the contest May 12, are all good ones, and the contest will no doubt be close. So far there has been no mudslinging, and this speaks well for the candidates and their friends. The following is the result of Monday's primaries:

Picton.....1082  
McDuff.....695  
Lane.....669  
Eggerth.....649  
Dooling.....600  
Fernald.....583  
Curry.....580  
French.....474  
Williams.....190  
Sweeney.....147  
Lloyd.....130  
Sugrue.....120  
Carman.....104  
Whittle.....168  
Pieper.....97

Total.....2196

The six highest candidates who will contest for honors May 12 are Wm. Picton, Edward McDuff, W. L. Lane, Fred Eggerth, J. J. Dooling and R. L. Fernald. In past elections it has been the habit to shower the public with numerous candidates. The two highest names on the list not receiving the nomination were R. H. Curry, newly elected water commissioner, and H. E. French, J. W. Williams, J. H. Whittle stood highest above the socialists, while two of the latter C. D. Lloyd and A. Sweeney led their ticket. D. J. Sugrue, merchant, and E. Pieper brought up the rear of the procession. The total vote cast, by unofficial returns reported to the Terminal headquarters, was 2196 which was about half of the registered vote. The heaviest vote was polled on the east side of our growing city, where organized labor received greatest support through the wives of employes in various factories of the city.

### Crossings to Be Opened.

The Santa Fe railroad officials will not oppose the opening of 16th and 20th street crossings under the Oakland branch of the railroad. The opening of these streets from Macdonald through to the waterfront will add much to the value of property in this vicinity.

### CONDENSED LOCAL.

Rev. David Ralston is visiting in San Jose this week.

Pullman Park hotel was sold Wednesday at sheriff's sale.

City Architect Ogborn reports building for the month of April amounts to 162,000.

The annual ball of the Native Daughters of the Golden West will be held next Friday evening.

The Richmond Hive of the Ladies of the Maccabees met in Bank hall yesterday afternoon where a large class of candidates were initiated.

Hazel Renwick, the five year old daughter of Mr. and Mrs. Charles Renwick, succumbed to a severe attack of diphtheria yesterday morning. She had only been ill four days.

The San Pablo athletic club, recently organized, is proving a success. The boys now have a good place to spend evenings, and greatly appreciate the new attraction.

The murderer of Bert Blanchard, the deputy game warden, killed in the hills back of Stege, are now under surveillance, and will soon be brought back to answer for the crime.

The rural service of the U. S. postoffice department will be extended into the eastern and north-eastern portions of the city June 1, 1913. The territory to be served will be Stege and San Pablo.

## Santa Fe's Depot To Be Old Mission

Building Site Convenient to East  
and West Sections of  
Richmond.

The Santa Fe railroad does not deviate in style of architecture in building passenger depots. The original design and plans for Richmond's depot will be carried out in full, which means that it will be an exact counterpart of the Oakland mission depot at 40th and San Pablo. Many guesses have been made by nondescripts as to the location of this structure, but railroad officials seldom take newspapers into their confidence except to tell them about an excursion that will occur on some future date or the change of time in Nos. 13 or 23.

But the psychological little bird has tipped it that the Santa Fe depot will be erected midway between Macdonald and Ohio avenues on the east side of Ashland. This will accommodate the long overland trains, enabling them to clear both Macdonald and Ohio avenues. Chanslor avenue which crosses the S. P. toward Pullman and Oakland, will be opened through in the near future.

Ultimately the Santa Fe will build a short line on the original survey from San Pablo depot connecting with the present Oakland and East-side railway on San Pablo and Macdonald avenues, and another station will be erected there. Offices for the sale of tourists tickets will then be established on Macdonald avenue and also on Cutting for the convenience of traveling patrons.

Up to the People.  
The ordinance prohibiting the city from employing labor other than that residing in Richmond was passed up to the referendum last night by the city council. Follett was in doubt about the constitutionality of the law, and it appears that there is some doubt as to such an ordinance holding in law, although all loyal citizens of Richmond would like to see the home laborer, skilled or unskilled, have first choice.

### Albany Briefs.

Mrs. Floyd Pinger, wife of the popular electrician, is visiting in Los Angeles.

The social given by the M. E. church last Friday night was a success financially and socially.

The derrick for the oil well prospect that was an eyesore for the past year, mysteriously disappeared one dark night.

Mr. and Mrs. Rollin Gould have returned from a trip to Los Angeles where they visited Mr. Gould's mother.

The schools of Albany picnicked at East Shore Park yesterday and there was a big crowd of youngsters teachers and parents in attendance.

A new business block will be constructed on the corner of Talbot and Washington. Washington is destined to become a business street.

Owners of goats are disposing of them, as there appears to be some peculiar epidemic among the animals that causes the milk to curdle and turn green.

Big Cerrito Hill, also known as McKeever's Hill, is being converted into a beautiful resort for sightseers, the marine view from its summit being unsurpassed in California.

Mesdames Davis, Thelan, Comer Wixon and Brown visited Richmond yesterday, after spending a pleasant forenoon at East Shore with the school children who were picnicking.

The Albany real estate market is becoming active on account of the fine service given by the big Southern Pacific electric and the proposed ferry service from Acid Point to the World's Fair grounds.

### Dry Sign on Hotel.

SACRAMENTO, May 2.—The assembly yesterday refused to pass the bill permitting the big Claremont hotel to sell booze. The hotel is within the radius of the dry zone in Berkeley town.

## He Thought Bill Not Necessary

Oil Pipe Lines Declared Common  
Carriers by a Vote of  
66 to 1.

SACRAMENTO, May 2.—By a vote of 66 to 1 the bill to declare all oil pipe lines common carriers passed the assembly Wednesday. The only opposition to the bill was by Johnston of Richmond, who defended the Standard Oil Company, and said that the bill was not necessary. Why Johnston, whose home is in Richmond, the headquarters for the Standard Oil works, should be the one negative vote out of 67 has caused much comment in political circles in Contra Costa county, where Mr. Johnston aspires to higher things in the political arena.

Under the terms of the bill all pipe lines are placed under the jurisdiction of the Public Utilities Commission and are required to transport the oil of all producers at the same rate as oil belonging to the interests which own the lines.

The bill has been fought by the Standard Oil Company, the Union Oil Company and the Producers' Transportation Company, all of which own pipe lines from the oil fields to the ocean.

### City Briefs.

Concert tonight at the Santa Fe reading room. "A Lovers Quarrel" opera.

R. P. Funk has returned to Richmond from a visit to the San Joaquin valley.

The laundry workers will give their annual ball at East Shore Park this evening.

The officers of the woolen mills for Richmond were in this city Monday, and inspected the site for the proposed factory.

Conn Bros. made a sale of three lots this week to W. McCollum of Napa. The lots are on Bissell between 18th and 19th.

An order issued from Washington, D. C., forbids smoking on ferryboats and steamers where automobiles are carried.

The Richmond Union high school will give a theatre party at the Richmond theatre on the evening of May 9. The proceeds will be used for the benefit of the school.

The formal dedication of the new Pythian Castle will be held this evening in the big lodge room and ritualistic work of the order dedicating the new building will be held in the secret session of the lodge.

The S. P. R. S. I. and U. P. E. C. lodges of San Pablo will give the Holy Ghost festival May 10, 11 and 12. Joe I. Machado is one of the leading promoters of this annual event which promises to be bigger and better than ever.

The coroner's jury, in the death of J. C. Arnold, who was killed in a collision between his auto and a street car, stated that accident was of an unavoidable character, with no blame attached to either the motorman or the company.

The funeral of Charles R. Hale, Jr., was held Tuesday afternoon from the residence of the parents of deceased, 224 First street, Tuesday afternoon. The services were held under the auspices of the Eagles. Interment was made in Sunset, Bert Curry, the undertaker, having charge of the funeral arrangements.

Bert Trainer, who is attending high school at San Jose, was elected football manager of the fine athletic team of the prune eaters. Bert is a nephew of Dr. W. E. Cunningham.

The seniors and juniors of this high school have made things hum the past week, according to dispatches. Mr. and Mrs. T. R. McClure have returned from their touring trip in the San Joaquin valley. They enjoyed the outing, and had no accidents save one tire puncture, causing slight delay. Mr. McClure reports that the rainfall is deficient in the valley, and only the irrigated sections will return full crops this year.

## City Hall Lease Will Soon Expire

Site For Municipal Building Must  
Be Definitely Settled By  
the People.

The lease on the present city hall will expire, it is said, about October 1. If the city council does not intend to re-lease at the present location it may soon break ground on either of the sites selected near Cutting boulevard and accepted by the city—either the Wall site or the Cutting site. No action to date has been taken on the location near Twenty-third street. San Francisco's municipality will have their city hall by 1915. Oakland has hers now, the finest west of Chicago.

### A Good Man Gone.

William Eggerth, father of Mrs. E. M. Ferguson of this city, died at the German Hospital, San Francisco, Friday, April 25, after undergoing an operation. Deceased was for a number of years connected with the drug store of E. M. Ferguson, his son in law, at 722 Macdonald avenue. The funeral was held Tuesday, cremation of the body being made at Mountain View cemetery, Oakland.

### Progressive Richmond Club.

The Richmond club has taken up civic reform in earnest, and at a well attended meeting of the club Monday it was decided to co-operate with other organizations of Richmond in making this a cleaner city. The saloons at Stege Junction, the San Pablo avenue roadhouses, the subway question, cleaner street cars, the opening of Bissell avenue and other matters were taken up by the club, and there promises to be a busy campaign ahead.

### Bids for Elks Building.

There were nine bids opened by the board of directors of the Elks the other night, some of the bidders being outsiders. Among the nine bids were those of Ward & Goodwin and Fluth & Morton, there being a difference of only \$8 in their bids. The former's bid was \$44,325, the latter's \$44,333. The highest bid was that of Newson, Wald & Holm, \$47,530. The board of directors will award the contract at its next meeting.

### Masons Gather.

There was a most successful meeting of Masons of Contra Costa county and surrounding cities held in Richmond last Sunday. This was the annual get together, and the meeting place was in the auditorium of the Lincoln Grammar school. An excellent banquet dinner was served, and the hall was appropriately decorated for the occasion. The visiting delegations were taken under the wing of the entertainment committee and given an auto ride over the city.

### Back From Los Angeles.

City Attorney D. J. Hall and Councilman Garrard returned from Los Angeles Monday and report progress in the matter of the tunnel right of way for the city through the property of the Santa Fe at the waterfront. The Santa Fe officials will have their engineers determine the amount of land required and that amount will be condemned and turned over to the city.

### SPORTS.

The Oaks are on the toboggan.

Los Angeles is at the top with a good lead.

San Francisco and Portland are in the cellar.

Happy Hogan's Venice team is now occupying second place in the percentage column.

Stahl is after Hal Chase for the Boston champs. It looks like Chase will have a chance to get on a winning team.

The New York Americans with the great Chance as foreboss, have lost 12 and won 2. Looks like the Wolverson administration.

## Big Contracts Are Given Out By City

Council Takes Up Water Ordinance and Other Important Matters.

City council met in regular session Monday night at the old city hall. Communication asking for widening 23d to 150 feet in North Richmond, also from H. J. Snider complaining of lack of water south of Andrade addition and asking State Railway Commission to interfere, referred back to complainant; also from Warren Bros. Co. giving the Barber Co. permit to use their patent on certain streets. Bids of L. L. Page, S. C. Rogers, G. W. Cushing, J. V. Galbraith, W. J. Charles and C. W. McMaster on improvements of 16th and 17th streets between Clinton and Barrett and other streets referred to city engineer. Lee D. Windrem requested passage of ordinance prohibiting hotel solicitors from operating on Santa Fe trains in Richmond city limits. Team of Fire Company No. 2 placed on pasture accepted and approved. Stable ordinance nearly ready for passage. Water ordinance fixing rates in city of Richmond for one year will be adopted at next meeting; ordinance requiring employment of Richmond residents on all city public work passed, no noes; assignment of contract improvement of West Chanslor from D. O. Church to Municipal Improvement Co., approved. Resolutions of intention for improvement of portions of Ohio st. and East Chanslor adopted. Fire hydrants ordered placed on Chanslor; progress reported toward right of way for municipal tunnel through Santa Fe property for highway to municipal wharf and ferry and for municipal railway. Audited claims of \$4363.93 ordered paid.

### Three Big Contracts.

Three big improvement contracts were given out Monday night by the council totaling \$150,000. There were numerous bids for these jobs. Point Richmond's hill streets received the attention of the Warswick Co., whose bid being the lowest, took the prize. This company bid was \$134,900 34, and includes the improvement of Richmond ave. G. W. Cushing got the contract for improving 17th street at \$12,155.76. There were six bids for this job.

L. L. Page was the lucky bidder for the improvement of 16th street. There were four bids made on this work, but Page's being the lowest, he was awarded the contract. His bid was \$7840.17.

### State Highway Coming.

J. H. Trythall, chairman of the board of supervisors, has returned from Sacramento and brings the welcome news that state highway construction work in Contra Costa county will begin in June. The route of this fine thoroughfare will follow the bay shore from Oakland and from Richmond, will touch Pinole and Martinez, connecting via the Martinez Benicia ferry with the state highway through Solano county.

### Busy Assessor.

County Assessor Meese has a large force at work preparing the 1913 assessment rolls. With the assistance of late maps of the many school districts the work will be reduced to a minimum.

Forty foreigners applied for naturalization papers in Contra Costa county last month.

### Seventh Street Controversy.

City Attorney Hall states that the injunction is only temporary and prevents the sale of delinquent property until the Superior Court can pass upon the objections.

J. P. Marzullo has opened a tailor shop in the Terminal building at 618 Macdonald avenue. Joe is a first-class workman and a popular fellow. He is doing a fine business in Richmond, because he is "furnishing the goods."—Adv

## BARGAINS IN WAISTS \$2.50

for values up to \$6.50

We offer for Saturday a line of high grade waists at a fraction of their regular selling price. We are closing out odd numbers and while the sizes are short in some models, in others a full range of all sizes will be found. They include all the new and popular shades, taupe, new nut brown in the colored chiffons trimmed in lace; also some pretty silks in solid colors and stripes, white messaline and China silk models.

Must be seen to be appreciated.

Eastern Outfitting Co.  
581 14th Street, Oakland.

The Terminal Stationery Store, 618 Macdonald, carries novelties in stationery, with your name and address artistically printed thereon. Try the oldest newspaper in Richmond for printing.

## Skidoo TO GRAY HAIRS

It took a Richmond man to finally make the discovery. Gray hair no more. A permanent cure for dandruff. Richmond residents who have had hair restored are ready to convince you. This tonic is on sale at Richmond Terminal Stationery Store, 618 Macdonald ave., Richmond.

FOR RENT—8-room house, bath and toilet on first floor, also on second S. S. Daly, 19th and Barbuck. 174

Elegantly bound books of fiction by Hall Caine, Jack London, Harold Bell Wright, and standard authors, 25c each. Terminal Stationery Store, 618 Macdonald avenue.

LOST—An assessor's personal property receipt book, between county line and Sunnyside hotel, San Pablo. Reward. Finder leave at this office. 18-6t

The Terminal printed it for me.

## NEWS OF THE WORLD IN PARAGRAPHS

Resume of Happenings From  
Beyond the Borders of  
the Pacific

Comprehensive Review of Interest  
ing Occurrences From All  
Sections

Tokio—Admiral Count Heihachiro Togo, the naval hero of the Russo-Japanese war, has been promoted to be admiral of the fleet.

Raleigh, N. C.—The plant and building of the Raleigh News and Observer, owned and edited by Josephus Daniels, secretary of the navy, have been destroyed by fire.

London—Mrs. Mary Ann Cooper of Southgate, the original of Dickens' "Little Dorrit," died last week in her hundredth year. She and Dickens were boy and girl together in Somerset.

New York—The 27th anniversary of Shakespeare's death was commemorated April 23 by the several Shakespeare societies of this city. A laurel wreath was placed on the poet's statue in Central park.

New York—The will of J. P. Morgan has been admitted to probate. Legal formalities were dispensed with upon waivers which the heirs at law and next of kin signed when the will was presented to the surrogate.

Boston—Determined that New England shall have its share of the added commerce with Central and South America facilitated by the Panama canal, a delegation of the Boston chamber of commerce has set sail for the south.

Washington—Secretary of the Treasury McAdoo is considering the bill of Senator Townsend, providing for the consolidation of the revenue cutter service and the life-saving service into one bureau, to be known as the coast guard of the United States.

Madison, Wis.—In an opinion to Thomas Tainter, Attorney General Owen held that a person of Indian descent who has observed the manners, customs and industries of a civilized life is entitled to vote. Tainter is of Indian descent.

Vancouver, B. C.—The Canadian Pacific railway recently called for tenders for driving a five-mile double track tunnel through Roger's Pass at summit of Selkirk. It will require three to five years to build and will cost about \$8,000,000.

Mexico City—General Felix Diaz and Francisco de la Barra, the foreign minister, have definitely withdrawn as candidates for the presidency and vice-presidency respectively of Mexico. The reason given for their action is congressional delay with regard to the elections.

Washington—Dr. William L. Welsh of Johns Hopkins University was elected president of the National Academy of Sciences here at the closing session of the academy's fiftieth anniversary meeting. Ten American scientists were elected members of the academy.

Washington—Diplomatic circles are in animated discussion of Secretary Bryan's dinner party the other night to some forty distinguished members of the diplomatic corps, at which unforgotten grape juice was served in place of the variety of wines which customarily have a place.

Albany, N. Y.—John Mitchell, former president of the United Mine Workers of America and a vice-president of the American Federation of Labor, has been designated by Governor Sulzer to be state labor commissioner. The term of office is four years, and the salary is \$8000.

Madison, Wis.—Testimony that the parcel post had taken 29 per cent of the business of express companies was given before a committee of the legislature by Edwin S. Mack, representing the American Express company, and E. W. Nailer, general manager of the same company, at Chicago.

New York—Railroad firemen are granted an increase in pay estimated at from 10 to 12 per cent by award of the Erdman act arbitration board. Other claims of the firemen are allowed, but the demand for two firemen on large locomotives is denied, except in case of necessity.

Cincinnati—The book committee of the Methodist Episcopal Church of America ended its sessions after choosing San Francisco as the meeting place during the Exposition year. Exhibits representing the publishing interests of the Methodist Episcopal Church will present an elaborate display.

Washington—A joint resolution to abrogate the Hay-Pauncefote and Clayton-Bulwer treaties, on which Great Britain is basing her protests against the Panama canal act, has been introduced by Senator Chamberlain of Oregon and referred to the foreign relations committee.

### BILL PERMITS AMENDMENT OF CONSTITUTION BY INITIATIVE

Washington—Senator Cummins has introduced a resolution to amend the constitution that when legislatures of sixteen states, or fifteen per cent of the voters of twenty-four states petition the president for a constitutional amendment it may be ratified by two-thirds of the states, either through the legislatures or by direct vote.

## News of Pacific Coast Condensed

Washington—Secretary of Commerce Redfield has announced he has decided to recommend Walter MacArthur of San Francisco for appointment as shipping commissioner of the port of San Francisco.

Washington—Representative Raker has taken up with Postmaster General Burleson the contemplated closing on May 1 of the Bullion, Placer county, postoffice. Raker has asked that the office be continued.

Seattle, Wash.—Washington has a few more than 150 participants in the battle of Gettysburg who will be sent east, all expenses paid by the state, to join in the celebration July 1 to 3 of the fiftieth anniversary of the great struggle.

Los Angeles—An order for the final distribution of the \$25,000,000 Lucky Baldwin estate has been made by Judge Rives in the probate court. Since the appointment of the executors four years ago, it was shown that the estate had more than doubled in value.

Oakland—Mayor Frank K. Mott has announced that Patrolman James H. Kiel, who risked his life to save several persons trapped in a burning building at 480 Twentieth street a week ago, will receive a medal as recognition of his bravery by the city officials.

Oakland—Mayor Mott has received a letter from the war department approving the plans of the San Francisco-Oakland Terminal Railway company to make a fill 1000 feet wide from the mainland to a point on a line with the bulkhead which the city is now building.

French Gulch—Miss Bessie Maxwell, school teacher, has received appointment as post mistress here, succeeding her father, E. L. Maxwell, who was also an aspirant for the position. Miss Maxwell had stronger backing than her father and won. The salary is \$800.

Stockton—Announcement has been made that the Bankers' Underwriting Corporation, recently organized by business men of this city, contemplates the establishment of a bank and trust company with a paid up capital of \$1,000,000. The venture is said to be well backed by outside capital.

Santa Cruz—A municipal exhibit, said to be the first ever attempted on the Pacific coast, opened here Thursday, with Mayor George Stone presiding. The exhibit is under the auspices of a local club and shows the workings of the various city departments and the workings of organizations and industries.

Bakersfield—The new automobile race track in this city, erected at a cost of \$100,000, was formally opened Saturday, when a two-day program of motor races began. The meet had the sanction of the American Automobile Association and was given under the auspices of the Kern County Fair Association.

San Leandro—At a meeting of the local Chamber of Commerce Monday plans were started for the fourth annual cherry festival, to be held this spring. The business men will attempt to make this one bigger and better than in previous years. During the festival several tons of cherries will be given to visitors.

San Francisco—James A. Barr has been appointed chief of the department of education and Alvin Eugene Pope chief of social economy of the 1915 World's Fair. Barr is manager of the bureau of conventions and societies, securing for the exposition more than 100 big gatherings, and will continue in that position.

Los Angeles—The famous White Squadron, the drill team of Los Angeles Lodge, No. 99, B. P. O. E., will be one of the biggest features in the great Portola festival at San Francisco October 22 to 25. Eighty men will be in line from this city, and the party that will go north from this city will number more than 200.

Stanford University—George A. Clark, academic secretary at Stanford, who visited the Pribilof Islands last summer in order to give the government a report about the fur seals there, has been called to Washington, D. C., by the bureau of fisheries to assist in settling the question of seal fishing on the fur seal islands.

Washington—The old Spanish transport Manila, captured in Baker Bay, May 4, 1898, incident to Dewey's victory in Manila Bay, will be sold at public auction at the Mare Island navy yard, California, where she has been used as a prison and detention ship. The Manila was built in Scotland in 1881 and has a displacement of 1750 tons.

Oakland—The proposed bill establishing a California civil service school for training city, county and state officials, has been endorsed by the Oakland chamber of commerce. That body has asked the Alameda county legislative delegation to support the measure. Telegrams have also been sent to chambers of commerce throughout the state, asking support.

### Prohibits Sale of Aigrettes

Harrisburg—The bill prohibiting the sale of aigrettes and the shipment of such feathers into or out of the state of Pennsylvania after July 1, 1914, has been approved by Governor Tener.

New President of Cuba  
Havana—The senate and house in joint session proclaimed General Juan Mario Menocal and Enrique Jose Varona elected president and vice-president of the republic.

## SECRETARY BRYAN COMES TO CONFER ON LAND BILL

Submits Four Proposals, Either of Which  
He Believes Would Be Better Than  
Scheduled Measures

Sacramento, April 29.—In the conference with the governor and members of the legislature Secretary Bryan reaffirmed the state's right to act in the manner it saw fit, but suggested several alternatives to the passage of a bill restricting aliens "ineligible to citizenship," basing his reasons on the broad foundation of public policy. Briefly, these alternatives, in the order they were suggested by the secretary of state are as follows:

1. Delay immediate action and allow the state department to try to accomplish the ends desired by means of a new treaty with Japan.
2. Delay immediate action and appoint a commission to investigate the subject of alien land ownership and act in conjunction with the president in securing relief.
3. Enact a law similar to the statute in Illinois, which permits aliens to hold land for a period not exceeding six years, and applies alike to all aliens.

Enact a law similar to the federal statute governing land ownership in the District of Columbia, which is a general law applying to all aliens. Sacramento, April 29.—After the subtle eloquence and kindly persuasiveness of William Jennings Bryan had brought the members of the legislature to the point of agreeing to allow the difficulties of the alien land ownership of land in California to be adjusted by diplomatic agreements under the guidance of President Wilson, Governor Johnson in a speech urged the passage

## Conferences With Bryan End; Law Objected to Will Be Passed

Sacramento, April 30.—Immediately after a long conference with Secretary Bryan last evening the California legislature and the governor gave an emphatic answer to the government at Washington. The senate at once adopted the new anti-alien land bill submitted by Attorney General Webb. Governor Johnson issued a statement declaring that the conferences with Bryan were over and that the time had come to pass the law. The Webb bill was offered by Birdsell as a substitute for his senate bill and was accepted without dissent. The bill now must be printed and engrossed, but that will take only a day.

Secretary Bryan says he will stay in California until the question is settled. The Webb bill will pass finally on Thursday, according to the present schedule, and Governor Johnson said with emphasis: "We will settle this thing now, once and for all."

And then he dictated a statement, as follows, though he spoke to his friends and advisers with even more emphasis and with the ever present idea that nothing had come from Washington that was definite, decisive or convincing:

"The conferences between the secretary of state and the legislature were concluded tonight. We were delighted with Mr. Bryan, and all that he said was given the most respectful consideration. Every opportunity was accorded him, and the conference closed only when he stated that he had nothing further to say."

"The members of the government of California with unanimity expressed themselves as desiring to aid the national government and in no wise to embarrass it. The spirit pervading the meetings was one of friendly cooperation and full of patriotic purpose."

"After it all, though, I think the

### BRYAN SUGGESTS THAT ALL DIFFERENCES BE ARBITRATED

Washington—Secretary Bryan's preliminary plans for a world-wide peace movement have now been laid in formally before the senate foreign relations committee. Mr. Bryan has been at work for some time upon a crystallization of his ideas for international peace, and it is understood that he is now prepared to recommend a series of world-wide treaties for the submission of all disputes to arbitration and a limitation upon armaments.

It is understood that Mr. Bryan has in mind the arbitration of all disputes. The secretary's suggestion as to the limitation of armament, it is said, will include the proposal that when vitia questions have been submitted to a commission of inquiry neither party to the dispute shall in any way increase its armament or make further preparations for war until the commission has reported its findings.

### Finds Anti-Alfalfa Bug

Washington—W. R. Thompson, a government entomologist stationed in Italy, has shipped to this country specimens of a newly-discovered anti-alfalfa fruit parasite. Mr. Thompson's pet parasites will put the alfalfa weevil out of business, it is asserted.

## WOULD ABOLISH LEGISLATURE

Mode of Law Making Changed  
by Constitutional Amend-  
ment Resolution

Provides for Election of Forty  
Lawmakers to Sit Practically  
Continuously

Sacramento—"Shall the people of the state of California abolish the legislature?" That question is to be asked of the voters of the state under the terms of a resolution introduced in the senate and assembly to submit a constitutional amendment on that subject.

Instead of a legislature it is proposed to elect a legislative body of forty men to devote their time to legislative work, to sit for a year at a time and to hold office for four years. A salary of \$5000 for each of the members for each regular session is provided.

The resolution is introduced in earnest by those who, for weeks, have been studying the proposition. The men who are closest to the governor are the ones who have lent their names to the resolution and under whose names it has been introduced.

In the assembly the resolution was offered by Assemblyman Henry Bagby of Santa Marie (Democrat); L. D. Bohnett of San Jose, floor leader of the administration forces; H. Stanley Benedict, leader of the southern delegation; T. J. Weldon of Ukiah (Democrat); W. A. Sutherland of Fresno; W. S. Killingsworth Sr. of Vacaville (Democrat); J. W. Gulberson of Kings county (Democrat); and William C. Clark of Oakland (Progressive).

In the senate the sponsors of the measure are George Cartwright of Fresno (Democrat); A. E. Boynton of Butte and San Francisco, president pro tem and leader of the senate Johnson forces; William L. Carr, Archibald Campbell (Democrat); Lee C. Gates and J. C. Owens (Democrat).

The governor of Kansas has suggested such a plan in his state.

### DISCRIMINATORY PRACTICES ACT PASSES LOWER HOUSE

Sacramento—Despite vigorous opposition by Schmitt of San Francisco, the Carr-Benedict discriminatory practices act, which provides that articles must be sold in one part of the state at the same rate as at another, the differentials in freight rates being taken into consideration, passed the lower house.

Amendments by Schmitt that would make the bill acceptable to the various industries of the state were voted down and the bill has been sent to the governor.

### Prison for Auto Fiends

Sacramento—A term in the penitentiary may be given to any person in an automobile or any other vehicle who runs another person down and fails to stop and care for the victims, according to the Johnston bill, which is now through both houses. It requires reckless drivers to pick up their victims and convey them if necessary to a physician. The driver is also required to give his name, address and number of his car.

### Investigate Orphanages

Sacramento—By unanimous vote the assembly adopted the concurrent resolution introduced by Senator Boynton directing the state board of education to make an investigation into the educational facilities afforded children in orphanages. The resolution already had been adopted by the senate, and as it does not require the signature of the governor it becomes immediately effective.

### NEW YORK ASSEMBLY VOTES \$250,000 FOR EXPOSITION

San Francisco—The assembly of New York has passed a bill appropriating \$250,000 for the use of the New York exposition commission for the Empire state's participation in the Panama-Pacific Exposition, according to advice received from Albany. Last year the New York Assembly voted a similar amount to be turned over to the commission, and it is the intention of doing this yearly until \$700,000 in all has been subscribed by the state to be used in defraying the expenses of its participation here in 1915.

This is the largest amount set aside for this purpose by any state. A large commission, composed of the prominent men of New York and representing practically every profession, has been selected by the governor and given practically unlimited powers in the arrangement of exhibits and the spending of funds allowed for this purpose. Norman E. Mack of Buffalo is chairman of the commission.

New York has already selected a site for its state building on the exposition grounds, and has expressed the intention of coming here in 1915 to act as host of the nations of the world, a role which the Empire state has taken in all of the other international exhibitions held in the United States.

### Burleson Gets Loving Cup

Washington—A massive silver loving cup has been presented to Post master General Burleson by the Texas delegation as a token of their esteem and in recognition of his fourteen years service as a representative in congress from that state.

### RARE BIRDS CAUGHT AT SEA

Barber on Atlantic Liner Makes Nest  
Sum by Luring Them on Board  
and Capturing Them.

The ship's barber of the Atlantic  
liner Minotauka has found a new and  
profitable pastime in catching wander-  
ing birds during the voyage across  
the Atlantic and selling them on his  
arrival in port. All sorts of birds  
come aboard at sea, he declared, and  
many of the rarer specimens find a  
ready sale.

His chief assistant is a whistling  
brown linnet, which lures the wander-  
ers aboard from its cage in an open  
port. When it whistles the vagrant  
flies alight on the ship, and presently  
futters inside. Then the port is  
closed and the strange birds are quick-  
ly made prisoners.

"I have caught hundreds of them,  
and I supply the London zoo regular-  
ly," said the bird catcher to a repre-  
sentative of the London Evening  
Standard. "On a recent homeward  
voyage the linnet lured a snowbird.  
It was the first one the London zoo  
had been able to secure in 16 years."

"What the birds require when they  
first alight on a ship is not food but  
water; and it must be boiled. Gulls  
follow a ship all the way across the  
Atlantic and back. American gulls  
are regular convoys as far as the  
English channel, where they desert us  
to follow a westward bounder home  
again."

"The English gulls, which are dif-  
ferent, having black wings, yellow  
bellies, and gray-white backs, con-  
vey liners over and back in the same  
way. The gulls like emigrant  
ships best, because the more passen-  
gers there are the greater quantity  
of scraps is thrown overboard."

"I do not believe the laws against  
capturing wild birds apply to the high  
seas, beyond the three mile limit. At  
any rate it is humanity to care for  
them, and give them drink, food and  
medicine when they come aboard ex-  
hausted. My birds have brought me  
good luck, and the passengers are  
fond of watching them."

"I had a curious experience with a  
homing pigeon once. It was near  
Whitland, at which season they  
hold races here. A carrier flew aboard  
as we were entering the channel,  
struck the mast and was stunned. I  
carried for it until I thought it was  
strong enough to fly again, and then  
turned it loose. The bird, however,  
came back on board. Again I set it  
free, and again it returned, this time  
settling down on a ledge at the stern,  
where it rested for a time, and finally  
left us as we neared Dover. It must  
have been disabled and couldn't fly  
far."

**Copying English Winners.**  
English words and clothes is the  
latest cult of the Berliner, who de-  
scribes himself as a "gent," which he  
thinks is an English word. He must  
above all things, says the Koelnische  
Zeitung, be dressed "tip-top" (a fa-  
vorite Anglo-German word) from head  
to foot.

He tortures himself into a passion  
for "whisky soda," though he would  
really much prefer a glass of beer. He  
sits for hours every evening in a  
"bar" enjoying strange and wonder-  
ful drinks. Of course he uses as  
many English words as possible.  
Nothing German can express what he  
means by "dress."

"Cutaway" is the only coat he can  
carry, and after the weary pleasures  
of the winter season, he assures you,  
"Oh how bin ganz broken down." In  
the evening he is satisfied only with  
"pumps," and any one who dares to  
maintain the old-fashioned nightshirt in  
stead of the "pyjamas" is too hope-  
less old-fashioned for his acquaintance.

In the West End tube if your toes  
trod on you no longer get a formal  
German apology, but the words "I  
am sorry."

**Hard to Get Right Course.**  
Playfulness is a good means of soft-  
ening social distances. A stiff, grave  
man is always in danger of being  
feared too much. On the other hand,  
as the self-love of many people is  
suspicious in the extreme, you must  
expect that your innocent playfulness  
will often be mistaken for ridicule.—  
Sir Arthur Helps.

**Only One "BROMO QUININE"**  
that is LAXATIVE BROMO QUININE. Look  
for the signature of E. W. GROVE. Cures a Cold  
in One Day. Cures Grip in Two Days. 25c Adv.

**Plants Need Nourishment.**  
A German investigator has dis-  
covered that plants resist cold best when  
they are given special nourishment to  
keep them warm. For instance, to  
feed a plant sugar stimulates its power  
of resisting low temperatures, much  
as like food acts upon animals, though  
in less marked degree.

Constipation causes and aggravates  
many serious diseases. It is thorough-  
ly cured by Dr. Pierce's Pleasant Pel-  
lets. The favorite family laxative.

**Impossibility.**  
Dr. Grabbe had almost succeeded in  
dismembering Mrs. Gassoway when she  
stopped in the doorway, exclaiming:  
"Why, doctor, you didn't look to see  
if my tongue was coated!" "I know  
it," said the doctor wearily. "You  
never find grass on a race track."

**Piles Cured in 6 to 14 Days.**  
Your druggist will refund money if PAZO OINT-  
MENT fails to cure any case of itching, bleed-  
ing or protruding Piles in 6 to 14 days. 50c  
Adv.

**Concerning Women.**  
When God thought of mother, he  
must have laughed with satisfaction  
and framed it quickly—so rich, so  
deep, so divine, so full of soul, power  
and beauty was the conception.—  
Henry Ward Beecher.

**Worth Remembering.**  
"You have never suffered from finan-  
cial reverses?" "No," replied Mr.  
Dustin Stax. "Financo is like dancing.  
When the market turns around and  
goes the other way you must reverse  
with it."

Mothers will find Mrs. Winslow's Soothing Syrup  
best remedy to use for their children during  
the teething period. Adv.

**Makes Quite a Difference.**  
Mason—"Do you think it's unlucky  
to have 13 at table?" Brown—"Not if  
the thirteenth is paying for the din-  
ner."

**Diplomacy.**  
Diplomacy is the practical applica-  
tion of strategy, but lots of people  
term it the double cross.—Milwaukee  
Sentinel.

**The Secret Out.**  
Fried eggs were originally the same  
as boiled eggs were before they were  
boiled.—Cassell's Journal.

**Detachable.**  
"Is her hair a crown of glory?"  
"Yes, and every night she abdicates."  
—Town Topics.

**WOMAN SUFFERED  
TEN YEARS**  
From Nervousness Caused by  
Female Ills—Restored to  
Health by Lydia E.  
Pinkham's Vegeta-  
ble Compound.

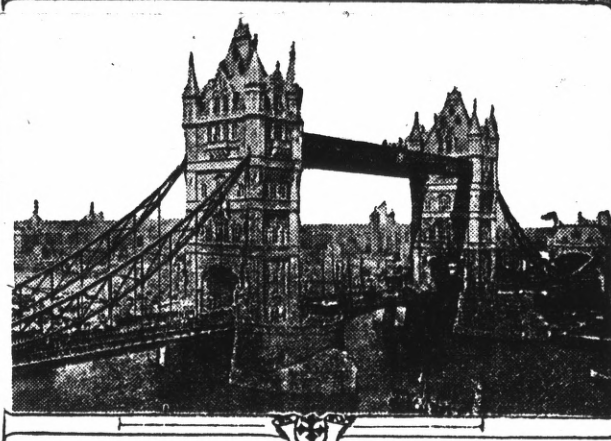

Auburn, N. Y.—"I suffered from  
nervousness for ten years, and had such  
organic pains that sometimes I would  
lie in bed four days at a time, could not  
retain the old-fashioned nightshirt in-  
stead of the 'pyjamas' is too hope-  
less old-fashioned for his acquaintance.  
In the West End tube if your toes  
trod on you no longer get a formal  
German apology, but the words 'I  
am sorry.'"

until four months ago I began giving  
Lydia E. Pinkham's Vegetable Compound  
a trial and now I am in good  
health."—Mrs. WILLIAM H. GILL, 15  
Pleasant St., Auburn, New York.

"Doctor's Daughter Took It."  
St. Cloud, Minn.—"I was so run down  
by overwork and worry that I could not  
stand it to have my children talk aloud  
or walk heavy on the floor. One of my  
friends said, 'Try Lydia E. Pinkham's  
Vegetable Compound, for I know a doc-  
tor's daughter here in town who takes it  
and she would not take it if it were  
not good.'"  
"I sent for the Compound at once and  
kept on taking it until I was all right."  
—Mrs. BERTHA M. QUICKSTADT, 727 5th  
Avenue, S., St. Cloud, Minn.

Lydia E. Pinkham's Vegetable Com-  
pound may be relied upon as the most  
efficient remedy for female ills. Why  
don't you try it?

## London With Lid Off

TOWER BRIDGE, LONDON

A Londoner goes to Italy for a  
holiday, visits Rome, and  
comes back brimming with  
information about the cata-  
combs. One wonders if an  
Italian, visiting London, learns any-  
thing of its subterranean marvels, for  
certainly the Londoner himself re-  
mains woefully ignorant of all the  
amazing systems of tubes, tunnels,  
drains, sewers, cellars and the like,  
which honeycomb the ground beneath  
his feet, and, compared with Rome's  
catacombs, are as a child's toy to St.  
Paul's cathedral.

Take an instance in point, says the  
London Weekly Telegraph. For more  
than two years, from 1909 to the be-  
ginning of 1911, a considerable area  
of the Strand behind St. Mary's church  
was inclosed by a gigantic hoarding.  
Literally millions of people must have  
passed and noticed that hoarding, but  
how many ever gave it a second  
thought? Yet if they had chosen to  
investigate they would have found  
that it inclosed an immense shaft lead-  
ing down to one of London's greatest  
drains—a huge, low level culvert run-  
ning all the way from Hammersmith  
to Bow, a distance of some twelve  
and a half miles, and costing more  
than three-quarters of a million to  
construct.

**Two Thousand Miles of Drains.**  
This drain, which is now completed,  
gives London a total of 352 miles of  
main drains, which are linked up  
with a tremendous network of smaller  
drains having a length of over 2,000  
miles. Their outfalls are at Barking  
and Crossness, where are immense  
pumping stations capable of dealing  
with some 15,000,000 gallons of  
sewage in the course of the 24 hours.

In Paris one of the recognized sights  
of the city is its sewers, but who  
dreams of inspecting the far more  
wonderful sewers of London, the wind-  
ing serpents of a length almost suf-  
ficient to stretch from London to Edin-  
burgh, and which guard the health of  
over six millions of people? They cost  
\$55,000,000 to construct and \$1,300,000  
yearly to care for, yet the money is  
well spent, for, since 1870, the death  
rate of London has dropped from 24 to  
14 per thousand.

All day and all night, all the year  
round, work goes on ceaselessly in the  
sewers. An army of sewer men in  
high thigh boots wade in the swiftly  
running fluid and work in the close,  
hot air of the deep dug tunnels.

Through these sewers now run what  
were once navigable rivers. The Fleet,  
for instance, which was once a water-  
way for pleasure boats and small com-  
mercial craft, at present runs about four  
feet below the surface of Farringdon  
street and New Bridge street. The tun-  
nel through which the river flows is  
big enough for the passage of an omni-  
bus, yet in wet weather its bore is  
not sufficiently large to carry off the  
storm water, as flooded basements in  
Tudor street and the neighborhood  
testify. When there are high tides in  
the Thames the "tidal flaps" at Black-  
friars bridge are held back by pres-  
sure of water, and at such times they  
say that, were a five foot wide driven  
into the middle of New Bridge street,  
the pentup water of the Fleet would  
rush up in a jet as high as Ludgate  
Hill station.

**Queer Finds in Sewers.**  
Strange things are found by the  
men who delve in the depths, digging  
London's sewers. In making the Buck-  
lersbury sewer the excavation ran sud-  
denly into a huge natural cave, though  
how formed it is impossible to tell. As  
for relics of past days, the London  
county council has a collection of  
these and a very interesting little mu-  
seum it forms. Here are tusks of the  
mammoth, the gigantic long haired  
elephant that once roamed the great  
marshes where London now stands.  
Here are bones of early British cattle  
and a perfect skull of a prehistoric  
Londoner who shot game with flint.

**FRANCE TO SEE BLACK ARMY**  
Part of Colonial Force of 140,000 Ne-  
groes to Come to Paris for  
View of Frenchmen.

Within the last six years France has  
raised a black army approximating  
140,000 men and the ministry of war  
and the colonial ministry are now pre-  
paring a plan for giving Paris a chance  
to see the black soldiers at the na-  
tional review on July 14.

It is proposed that each section—the  
Senegalese, the Madagascar troops  
and others—shall send a delegation,  
and that President Poincare shall pre-  
sent each regiment with its flag.  
The First Senegalese regiment,  
which has its flag already, will re-  
ceive the insignia and the Legion of  
Honor, which decoration was recently  
granted.

France's black army has been  
brought into being by Colonel Mangin,  
who was, when a captain, second in  
command of Marchand's famous mis-  
sion to Fashoda in 1898.

As precedents there are William of  
Orange's black regiment, who he  
laid in England; Maurice de Saxe's  
black troops at Fontenoy; the black  
battalion under Murat in the Russian  
campaign, and the French black troops  
in Guadeloupe, who fought the In-  
dians.

At the present time it is understood  
that the Senegalese army is well over  
50,000 strong and could be doubled  
very quickly. There are also regi-  
ments from the Sudan, from Dahomey,  
from the Congo, from French  
Guinea and the Ivory Coast, Algeria,  
Tunis and Morocco.

There are very few black officers.  
Two years ago there were only a do-  
zen. The French find that black men  
fight better under white officers, as  
has also been the experience of the  
American army—New York Tribune.

### That Wonderful Event

IF THERE is a time above all times when a  
woman should be in perfect physical condition  
it is the time previous to the coming of her babe.  
During this period many women suffer from headache,  
sleeplessness, pains of various descriptions, poor appetite,  
and a host of other ailments which should be eliminated  
in justice to the new life about to be ushered into this world.

### DR. PIERCE'S FAVORITE PRESCRIPTION

is a scientific medicine carefully compounded by an experienced and skilled  
physician, and adapted to the needs and requirements of woman's delicate  
system. It has been recommended for over forty years as a remedy for those  
peculiar ailments which make their appearance during "the expectant"  
period. Motherhood is made easier by its use. Thousands of women have  
been benefited by this great medicine.

Your druggist can supply you in liquid or tablet form, or you can send  
50 one-cent stamps for a trial box of Dr. Pierce's Favorite Prescription  
Tablets, to Dr. Pierce, at Invalids' Hotel and Surgical Institute, Buffalo.

It is your privilege to write to Dr. Pierce for advice, and it will be gladly  
given free of charge. Of course all communications are confidential.

**Few Visit "Garden of Eden."**  
It is said that hardly more than a  
dozen white travelers in a year visit  
the Garden of Eden, which is situated  
in Turkish Arabia, and is too inacces-  
sible to attract any but the most cou-  
rageous tourists. But perhaps people  
stay away from fear of being disap-  
pointed when they should see it.

**Too Much Realism.**  
Paterfamilias writes to complain of  
"the amount of realism" that is now-  
days imparted into mechanical toys.  
"The other evening," he says, "John-  
ny's automobile ran down the cat and  
knocked the sawdust out of two dolls."  
—Evening Standard and St. James  
Gazette.

**Her Appetite Hadn't Suffered.**  
"Do you think, Miss Clara," he ask-  
ed, with infinite tenderness in his  
voice, as he handed her the bill of  
fare, "that one's appetite is affected  
when one is in love?" "I haven't a  
doubt of it," she replied, scanning the  
bill of fare; and then she turned to  
the waiter and said: "Roast beef,  
please, with plenty of fat, and mashed  
potatoes, parsnips, and boiled on-  
ions."

**Increasing Rapidly.**  
"When I first took hold of this  
place," said the new proprietor of  
the grocery store on the corner, "it  
was doing absolutely nothing, and  
now the business has doubled."

## Gets Rheumatism Where He Wants It

Any One Can Now Cure the Worst Form of  
Rheumatism, Even Articular, Sciatic,  
and The Dreaded Neuritis.

This Plainly Shows How You Feel After Using S. S. S. It Surely Gets  
Rheumatism Where You Want It.

No more journeys to hot springs.  
No more salicylate acid. No more  
make-shifts, narcotics, opium, mor-  
phine, mercury, nor any other vile  
poisonous drug or pain deadener.  
The great discovery, Swift's Sure  
Specific, for aching bones and  
joints, nerve splitting pains in the  
muscles, backache, and every form  
of rheumatism, is the most remark-  
able remedy known to science.

It is naturally absorbed into your  
thoracic duct. In just about five  
minutes after it reaches your  
stomach, the heart begins pumping  
it all over your body.

**Awake Go the Crutches.**  
Its action is marvelous. Bed-  
ridden rheumatics get on their feet  
as if by magic. That cold, clammy  
sensation that made you hug a red  
hot stove is gone in a twinkling.  
That excruciating pain that made  
a feather lay as heavy as a ton of  
coal on the skin is gone. You get  
up and dance with glee. You  
metaphorically toss the rheumatic  
goblin into the invisible where  
Your rheumatism is gone—absolu-  
tely! It is an actual logical fact  
that Swift's Sure Specific

**Flashes Your Blood.**  
gives your entire blood circulation  
a fine, thorough bath. It just nat-  
urally and in a twinkling irrigates  
every atom in your body. It flushes  
out every cell, causes every bone,  
muscle, ligament, tendon, mucous  
surface and every nerve to thrill  
with freedom, with health, with  
new-found springiness.

And best of all, Swift's Sure Spe-  
cific, though a powerful, searching,  
overwhelming enemy to pain and  
the causes of rheumatism, is as pure  
as the dew on a peach blossom, as  
powerful as the heroic works of  
nature, as searching as the peremp-  
tory demand of the most successful  
science.

**Is Truly a Wonder.**  
Swift's Sure Specific puts the  
finger of red color to the cheeks;  
gives your nerves a new-found flush  
of joy; puts a glow of excitement  
into your muscles. No more Sci-  
atic; no more rheumatic sore  
throats; no more danger of Loco-  
motor Ataxia; no more Itis, Neu-  
ritis, or any other inflammatory  
condition that has laid so many  
low. Swift's Sure Specific is an  
extract, made and distributed from  
one of the world's greatest labora-  
tories, and is one of the greatest  
remedies ever produced for any  
purpose.

**Works Five Ways.**  
Swift's Sure Specific is such a  
thorough blood cleanser that it  
stimulates the lungs to burn up the  
poisons; causes the skin to evapo-  
rate great quantities of acids;  
flushes the kidneys and bladder to  
excrete the deadly toxins that cause  
uræmic poisoning; assists the  
bowels to move out of the system  
the waste that has been a daily  
menace to life. Don't wait another  
day before beginning this remark-  
able remedy.

You will find it on sale at any  
drug store at \$1.00 per bottle. Ask  
for S. S. S., the world's cure for  
rheumatism. For private, personal  
advice on stubborn chronic rheuma-  
tism, write at once to the Swift  
Specific Company, 115 Swift Build-  
ing, Atlanta, Georgia. Their medi-  
cal department is famous on all  
blood diseases, and is equipped to  
personal blood tests, ap-  
proved by the highest medical  
authorities. Get a bottle of S. S. S.  
to-day. Then-away goes rheuma-  
tism for all time.

**For DISTEMPER** Pink Eye, Epizootic,  
Shipping Fever  
and Catarrhal Fever  
Sure cure and positive preventive, no matter how homes at any age  
are infected or exposed. Liquid, given on the tongue, acts on the  
Blood and Glands, expels the poisonous germs from the body. Cures Dis-  
temper in Dogs and Sheep and Cholera in Poultry. Largest selling live  
stock remedy. Cures La Grippe among human beings and is a fine Kid-  
ney remedy. Use and fill a bottle; \$5 and \$10 a dozen. Cut this out. Keep  
it. Show to your druggist, who will get it for you. Free Booklet, "Dis-  
temper, Causes and Cures." Special agents wanted.

## THE TERMINAL

ISSUED EVERY FRIDAY  
Established in 1901  
Legal City and County Paper

GEO. W. RYAN, Publisher and Editor

TERMS OF SUBSCRIPTION:  
One year, in advance \$2.00  
Six months, in advance \$1.00  
Advertising rates on application

Entered as SECOND-CLASS MATTER June  
27, 1905 at RICHMOND, CALIFORNIA, under  
the ACT OF CONGRESS of March 3, 1879.

Legal notices must be paid for on or before  
delivery of advertisement. No excep-  
tion to this rule.

Grape juice will answer in a  
pinch.

Graft will soon be foreign to San  
Francisco.

Another college professor has  
landed a job in Washington. And  
he's from Berkeley.

Bryan broke ground for a fair  
building this week, but stood pat  
on the eastern view of the anti alien  
land question.

Judge Weller was defeated by  
Wiley Crist in San Francisco by a  
narrow margin. The women vote  
defeated Weller.

If Japan should declare war on  
the United States, the little brown  
man had better make his "get  
away" pronto.

On last Tuesday Robert Fowler,  
the American aviator, made a flight  
across the Isthmus of Panama in a  
hydro aeroplane with a passenger.

Secretary of State Bryan was  
featured on the front page of the  
San Francisco papers Wednesday  
with a shovel. The man with the  
hoe is out of date.

Many Contra Costa county news-  
papers are adopting the 7-column  
form and reducing the number of  
pages. The Terminal has always  
been a 7 column newspaper.

In Richmond politics one must  
deliver the saloon vote, another the  
citizens vote, another the church  
vote and another the labor vote.  
Who are the captains of industry?

The old-fashioned way of doing  
politics is becoming obsolete. The  
reactionaries don't take kindly to  
commissions with power to regu-  
late and inspectors vested with dis-  
cretion. Why?

Owens' liquor bill was amended  
in the assembly Wednesday chang-  
ing the closing hours for saloons  
from 2 to 6 a. m. This change  
was made for the accommodation of  
San Francisco's "theatre going"  
crowds who wish to tarry at the  
cafes in Bohemia.

Dr. H. C. Bagby, a shrewd law-  
maker of Santa Barbara county,  
says there are too many legislators  
and the sessions are too frequent.  
He would favor the election of  
assemblymen from congressional  
districts and would place a general  
educational restriction.

The ratification of the street rail-  
way traffic agreement was a great  
victory for the people of San Fran-  
cisco. The Geary street municipal  
road will be completed from the  
ferries to the beach by July 1. The  
Sutter cars will have a right to run  
to the ferry and the horse cars will  
be seen no more.

## Rural Carrier Exam.

On Saturday, May 24, 1913, the  
U. S. Civil Service Commission will  
examine eligible applicants for  
carrier on Richmond R. F. D.,  
No. 1 for outlying districts at San  
Pablo and Stege. For detailed in-  
formation inquire of Postmaster  
Samuel Jenkins.

Of the 55,050 Jap laborers in  
California, 20,000 are migratory  
farm laborers. The largest number  
of resident Japanese is in Los An-  
geles county, and the largest num-  
ber of land owners is in Fresno  
county. While the Japs only own  
about 350 farms in the state, they  
lease and control a vast acreage.  
The best fields have been depopu-  
lated of Chinese, because the Jap  
"seabbed" the Chinaman out of  
his job.

Under the scope of the public  
utilities act the railroad commission  
has power to regulate any corpora-  
tion, whether it is a railroad, ex-  
press company, electric light and  
gas system, water utilities, ware-  
housemen and wharfingers, and  
telegraph and telephone companies.  
The commission reduced the tele-  
phone rate between San Francisco  
and Oakland 3 1/3 per cent for an  
average switch. The telephone  
company formerly charged fifteen  
cents, now the charge is 10 cents.  
An individual can make complaint  
to the commission by letter and it  
will receive careful attention. Dur-  
ing the year 762 complaints were  
received, and in the majority of  
them the commission made adjust-  
ments.

## POLITICAL POINTERS.

Vote for the best interests of your  
city.

The Standard Oil Co. does not  
dabble in petty politics.

The voice of the "2700" club  
has been heard at the polls.

Tom Johnston was there on the  
pipe line vote. It is "not neces-  
sary" to state the vote.

If a man tries to be your "boss"  
before election what will he not  
attempt when elected to a little  
petty office?

There is a possibility that a well  
known attorney, twice elected as-  
semblyman, may aspire to the po-  
sition of district attorney in 1914.

The silent movement at the polls  
will buy your family more of the  
necessaries, than "shooting off your  
mouth" on the street corners and  
house tops.

The freak with the whisker and  
haircut election bet is on deck in  
Richmond. He says he will never  
permit his hirsute appendages to be  
tripped again if McDuff and Dool  
ing are defeated for councilmen.  
Mattress factories take notice.

Bob Fernald, who nosed out  
Curry by three votes, is the popular  
west side candidate. He is an  
old citizen of Richmond, one of the  
early pioneers. He has numerous  
friends who predict that he will  
land in the city council from the  
west side.

Pieton, Lane and Eggerth make  
a strong trio, and will receive the  
undivided support of organized  
labor. This election will test the  
loyalty of the bread winners to the  
men they have put up to represent  
them in civic affairs and look after  
their interests.

Hon. W. S. Tinning is not a  
candidate for any official preferment  
and cannot be induced to accept  
any position on the bench as one of  
the judges of the superior court of  
Contra Costa county. If Mr. Tin-  
ning could be induced to recede  
from his position he would be just  
the right man for the distinguished  
additional honor.

The state railroad commission has  
brought the reduction of rates by  
various utilities as follows: Two  
million dollars on freight rates an-  
nually; \$500,000 on power and gas  
rates; \$500,000 on telephone rates.  
Authorized securities passed on by  
commission, \$64,449,625; denied  
\$8,500,000; withdrawn \$3,000,000;  
pending, \$12,000,000.

## BOOSTERETTES.

Chandler avenue will be one of  
the busiest streets in Richmond  
when completed.

Macdonald avenue has more long  
streets as feeders than any other  
thoroughfare in Richmond.

The street car service of Rich-  
mond is good. The discriminating  
1 cent car fare inside the city's cor-  
porate limits will soon be adjusted.

The Southern Pacific Co., is plan-  
ning the erection of a large depot  
on its present location on Macdon-  
ald avenue before 1915. This may  
be the only depot on Macdonald.

So far nearly \$25,000 has been  
expended on the Richmond munic-  
pal harbor question and no dirt has  
been excavated. The improvement  
should be completed by 1915 as far  
as the tunnel and outer harbor are  
concerned.

With a \$250,000 S. P. depot at  
the mouth of the subway at 16th  
street and other big improvements  
in that vicinity coming up, there  
will be a Klondike rush to this cen-  
ter in another 6 months.

The graded highway will encircle  
the Standard Oil works across the  
marsh to the factories in North  
Richmond. If you own property  
in North Richmond you cannot  
overestimate its value.

A state technical school for Rich-  
mond may not reach passage this  
session. State Dept. of Instruction  
Hyatt says there is no better adapt-  
able location in California than  
Richmond for a school, and that  
five acres would be required for a  
site. Whose move?

## STORK ENCOURAGED.

Monday was a holiday in Venice  
on account of the arrival of the first  
American born baby in the south-  
ern city since January. The new  
baby received from the commercial  
organizations of the city \$100 worth  
of baby clothes; drugs, medicines  
and medical attendance during the  
first year of her life, free milk and  
a medal of honor. In addition the  
mother's doctor bill will be liqui-  
dated. These donations are the re-  
sult of an anti-race suicide cam-  
paign. Similar offers hold to all  
babies born in Venice during the  
present year.

## The Ballot Again.

Paragraph (c) of Subdivision 7,  
Section 12, of Act 1010, General  
Laws of the State of California, re-  
ferring to primary elections, pro-  
vides: "IF THE OFFICE IS A  
MUNICIPAL OFFICE IN ANY  
CITY OR TOWN WHOSE  
CHARTER DOES NOT PRO-  
VIDE FOR THE ORDER IN  
WHICH NAMES SHALL AP-  
PEAR ON THE BALLOT, THE  
NAMES OF THE CANDIDATES  
FOR SUCH OFFICE SHALL BE  
PLACED UPON THE BALLOT  
IN ALPHABETICAL ORDER."

Richmond's charter was framed  
some years ago and would stand  
slight amending in several places,  
especially in regard to the arrange-  
ment of the ballot. The arrange-  
ment of names in the order of filing  
of nominations permits of undue  
advantage, and would raise the  
question of priority in case two  
candidates should file at the same  
time. The state law, which pro-  
vides for the arrangement of names  
on the ballot in alphabetical order,  
was enacted purposely to obviate  
confusion and political trickery.  
Why the father of the Richmond  
charter did not adopt the state law  
is not quite clear.

## THE ELEVATOR BOY.

In Chicago He Made Rapid Progress  
In Becoming an Expert.

The first day he is occupied mainly  
in learning how to run his elevator.  
The second day he is so delighted  
with his position that he makes every  
effort to give all the information asked  
of him.

The third day he gets his uniform  
and begins acquainting himself with  
telling the passengers to step lively.  
The fourth day he learns how to  
advise anxious inquirers to look at  
the bulletin board or ask the steward.  
The fifth day he is so thoroughly  
versed in the duties of his position  
that he can run the car past people  
who are yelling "down" or "up" and  
three floors away from them wait  
back the gentle admonition to punch  
the button. Also, he is now able to  
carry the nervous passengers (two  
floors too far and then refuse to go  
back).

The sixth day he is an adept and  
demonstrates it by sliding the door  
quickly in the face of the man who is  
a second late, also by stopping the car  
and dropping a couple of floors to take  
on the stenographers with huge blond  
noses, who haughtily omit pressing the  
button.

He is now a real elevator boy and  
wonders what right the public thinks  
it has, anyway.—Chicago Post.

## CHEERFUL MENDELSSOHN.

The Pioneer in Good Conducting and  
the Boy Joachim.

The art of good conducting began  
with Mendelssohn. The Leipzig Ge-  
sellschaft owes the greatness of its or-  
chestra to him. He was a hard task-  
master, but, according to the words of  
Joachim, he earned the good will and  
respect of his men by his thorough  
knowledge, says the Music Magazine.

He was sane and rational, preferring  
a cheerful mood to gloom. Johann  
Kraus, formerly second violinist of the  
Joachim quartet, once told a little story  
of Mendelssohn's conducting in Lon-  
don, where he was always a favorite.

"Mendelssohn was to bring out the  
boy Joachim, then about twelve or  
fourteen years of age," he said. "At  
that time Joachim played Bach and  
Beethoven like a master. He began to  
rehearse the Mendelssohn concert with  
the orchestra when suddenly with boy-  
ish impetuosity he turned to the con-  
ductor and said, 'Herr Mendelssohn, I  
am sure there is a mistake in the or-  
chestration here.'"

"The cheerful and sunny Mendels-  
sohn replied, 'Well, this is a good time  
to correct it, my boy,' and the error  
was found and corrected."

## The American Collector.

"You can assure me that this old  
master is genuine?"

"Oh, yes, my very dear sir. The  
proof is perfect. Why, I can point out  
to you the very street in which the  
poor old master lived."

"And you are sure he was an old  
master?"

"Sure! Why, my very dear sir, he  
was more than ninety when he died."

"I'll take it,"—Cleveland Plain Dealer.

## She Hated It—Sure.

"I hate driving," she said.  
"Of course you do," he replied. "Ev-  
ery pretty girl does."  
Then she drew a long, deep sigh and  
permitted him to press her cheek  
against his own.—Chicago Record-Her-  
ald.

## Two Views of It.

Parson—Do you take this woman for  
better or for worse? Bridegroom—  
Well, I can't exactly say. Her people  
think it's for better, but mine think it's  
for worse.—Life.

## Richmond's Industries—Number of Men Employed.

In answer to numerous inquiries as  
to the number of manufacturing and  
number of men employed, The Terminal  
herewith publishes a list for the benefit  
of its readers and those who may be in-  
terested in Richmond's development.  
Richmond has 34 manufacturing plants,  
of which employ (March 1, 1913) 4365 men,  
classified as follows:

Industry	No. of Men Employed
Standard Oil Co.	2400
Pullman Shops	750
Santa Fe Shops	600
Western Pipe Works	175
California Wine Association	165
San Francisco Quarries	100
Pacific Portland Works	100
Pacific Sanitary Mfg. Co.	75

Total.....4365

Residing above there are 26 smaller  
manufacturing industries in Richmond,  
such as brick works, cap and match fac-  
tories, etc., employing 850 men and  
women. These figures are conservative  
and not given for advertising purposes.  
They are taken from statistics gathered  
by the Western States Gas & Electric  
Co., by request of their main headquar-  
ters at Chicago.

The assessed valuation of Richmond  
property is \$12,333,352.10. Bonded in-  
debtedness, \$300,000, for harbor im-  
provements. Number of building per-  
mits for 1912 were 902, value \$800,000.

## Byes on Bills.

Among the humorous memories con-  
nected with English judges is one of  
Justice Byes and his horse. This em-  
inent jurist was well known in his pro-  
fession for his work on "Byes," and as  
this gave a fine opportunity for alliter-  
ation his associates were accustomed  
to bestow the name on the horse, which  
was but a sorry steed. "There goes  
Byes on Byes," they took pleasure in  
saying, and as the judge rode out every-  
afternoon they indulged daily in their  
little joke. But the truth was that the  
horse had another name, known only  
to the master and his man, and when a  
too curious client inquired as to the  
judge's whereabouts he was told by  
the servant, with a clear conscience,  
that "master was out on Business."

## The French Imperial Guard.

The Imperial Guard of France was  
created by Napoleon I. when he be-  
came emperor in 1804. It was formed  
by a merger of the "gendarms," the "con-  
currence," the "directors" and the "com-  
mandants." It consisted at first of 9,775  
men. But was afterwards considerably  
enlarged. In the year 1809 it was by  
the emperor's order divided into the  
old and young guards. In January,  
1814, it numbered 102,700. It was dis-  
solved by the Bourbon Louis XVIII. in  
1815, revived by Napoleon III. in 1871,  
surrendered with Metz to the Germans and  
was abolished by the government soon  
after.

Of Robert Browning toward the  
close of his life Frederic Harrison in  
his memoirs has this to say: "He was  
all things to all men and all women,  
always at his best, always bringing  
light, happiness, generosity and sense  
into every society he entered. I think  
him the happiest social spirit whom it  
has ever been my fortune to meet."

Answering Her Father.  
"Could you support my daughter in  
the style to which she has been accus-  
tomed?"

"I have never tried such rigid econ-  
omy, sir."—Life.

Of all persecutions, that of calumny  
is the most intolerable.—Hazlitt.

## SUMMONS.

In the Superior Court of the county of  
Contra Costa, state of California.

Florence B. Rafferty, plaintiff, vs.  
Thos. F. Rafferty, defendant.

Action brought in the Superior Court  
of the county of Contra Costa, state of  
California, and the complaint filed in  
the office of the clerk of said county of  
Contra Costa.

The people of the state of California  
send greeting to Thos. F. Rafferty, de-  
fendant.

You are hereby directed to appear,  
and answer the complaint in an action  
entitled as above, brought against you  
in the Superior Court of the county of  
Contra Costa, state of California, within  
ten days after the service on you of this  
Summons, if served within this county,  
or within thirty days if served elsewhere.

And you are hereby notified that un-  
less you appear and answer as above  
required, the said plaintiff will take  
judgment against you for any money or  
damages demanded in the complaint, as  
arising upon contract or will apply to  
the court for any other relief demanded  
in the complaint.

Given under my hand and the seal of  
the superior court of the county of  
Contra Costa, state of California, this 7th  
day of April, A. D. 1913.

(SEAL) J. H. WELLS, Clerk.  
G. T. BARKLEY, Deputy Clerk.

J. M. Opsahl, attorney for plaintiff,  
Richmond, Cal. 1st apt 11

## SUMMONS.

In the Justice's Court of the Fifteenth  
Township, County of Contra Costa, State  
of California.

M. R. Jones and Lee D. Windrem,  
Plaintiffs, vs. Cornelius O'Brien, Lefend-  
ant.

The People of the State of California  
send greeting to Cornelius O'Brien, de-  
fendant.

You are hereby required to appear in  
an action brought against you by the  
above named plaintiffs in the Justice's  
Court of the Fifteenth Township, County  
of Contra Costa, State of California, and  
to answer before the Justice, at his office  
in said township, the complaint filed  
therein, within five days exclusive of  
the day of service, after the service on  
you of this Summons, if served within  
the township in which this action is  
brought, or, if served out of said town-  
ship, but in said county, within ten days,  
or within twenty days if served else-  
where.

And you are hereby notified that if  
you fail to so appear and answer, the  
plaintiffs will take judgment for any  
money or damages demanded in the  
complaint, as arising upon contract, or  
will apply to the Court for the relief de-  
manded in the complaint.

Given under my hand, this 23 day of  
April, 1912.

John Roth,  
Justice of the Peace of Said Township.

Clare D. Horner,  
Attorney for Plaintiffs,  
Richmond, California.

First pub mar 14. Last may 9

## TO EXCHANGE

200 acres best fig land in Mer-  
ced county will exchange for  
good business property in Rich-  
mond, Oakland or Berkeley.  
Price \$150 per acre.

Full bearing fig orchards join this tract for which  
\$1000 an acre has been refused. Land exceptionally  
level, good canal runs along one entire side. Abun-  
dant of water at a cost of one dollar an acre per year.  
Two miles from Merced on main county road,  
graded and gravelled. Well worth investigation.

## The Modern Way of Keeping House

Cooking with gas is the modern way of  
keeping house. Cooking with coal or  
wood means hot, hard, dirty work. And  
sometimes the stove won't "draw."

When you cook with gas there is no dirt  
or no trouble. The kitchen is always  
clean.

Why not investigate "Pacific Service."

## Pacific Gas & Electric Co.

## The Best Home Lighting Is Possible For You.

Electric lighting gives less trouble than any  
illumination. It does not soil walls and ceilings.  
You save in decorating costs. You can use as  
little as you want, or as much—from two candle  
power up. House wiring and fixtures are a  
sound investment—not an expense. Let us  
show you.
